To send faxes from SAP Business One, Symantec WinFax Pro 10.0 needs to be installed on one of the computers in the organization. Symantec WinFax Pro 10.0

must be purchased separately. You are advised to check that your system meets the system requirements as described by the manufacturer.

Symantec WinFax Pro 10.0 does not require special configurations or settings to work with SAP Business One.

1.3 User Privileges

The following table summarizes the requirements and recommendations for the group set up according to the operating systems:

Operating System Process	Win NT		Win 2000 & Win XP	
	Minimum	Recommended	Minimum	Recommended
Client Install	Users	Users	Power Users	Power Users
Client Upgrade	Users	Users	Power Users	Power Users
Runtime	Users	Users	Users	Power Users

Remarks:

- The group "Users" in Win NT is equivalent to "Power Users" in Win 2000 and Win XP.
- According to Microsoft, the group "users" in Win 2000 is not designed for installations, and has not permissions to perform actions like installation and upgrade.
